Free excursions and trips with expert cycling guides, excluding reservations made via online portals (e.g. Booking, Expedia etc.) and some travel agencies and tour operators.

CAMOMILLA GROUP CAMOMILLA GROUP

- Ideal for those who are not overly athletic and travel at a speed of around 18-20 km/h. If you like biking simply for immersing yourself in a meadow and smelling the flowers, for discovering and admiring ancient monuments or for stopping to enjoy an ice cream, you are in the right group. This is also suitable for those travelling with e-bikes (which can also be rented at the hotel).

LATTE MACCHIATO GROUP

- This group is ideal for those who are not very fit and travels at an average speed of 19/21 km/h. If you like the bike but still more to discover the gastronomic traditions of the area, enjoy the scents and landscapes, the group Latte Macchiato is the right for you. This group is also suitable for those traveling with E-Bike (also rentable at the hotel).

ACQUA GASATA GROUP

- The group Acqua Gasata requires a level of average training and travels at an average

speed of about 21/23 km/h. It is recommended for cyclists who love contact with nature and the landscape and who want to increase their performance.

SANGIOVESE GROUP

- Sangiovese is the typical wine of Romagna, with the strong flavor, just like this group. The average speed is 24/27 km/h and requires a good workout in the legs. We recommend it to cyclists accustomed to the pedal and all those that cannot be put off by the climbs.

SPRITZ GROUP

- Dedicated to sports or highly trained cyclists, Spritz is a group that maintains an average speed of 27/30 km/h, and tackles difficult trails with routes that reach to 140 km.
